The Wilson battery of Jacksonville and Company E. of Live Oak, were ordered to Baxter, Baker county, last Saturday to preserve the peace and effect the arrest of the Altman's and other implicated in the Duncan murders of last week. James Ward and Fred Stafford the safe blowers arrested at St. Augustine several weeks ago for blowing safes at Leesburg, Crescent City and other places, have pleaded guilty to the Leesburg job and are being arraigned at Ocala before a United States commissioner for robbing the postoffice at Leroy last February. If they don't get a big sentence in the state court they are sure of one in the United States court, for your Uncle Sam won't temporize with mail robbers.

The Jacksonville Metropolis very unjustly compares Baker county to make conditions better, and the Metropolis should be helped. We do not uphold the lawlessness of Baker county, but the percentage of crime is not greater here than in other sparsely settled counties of the state, and if we could separate the rowdy element from the hundreds of law-abiding people, we would have a much better county. The Standard, Macclenny, Baker county.

Accepts Defeat Manfully.

In another portion of the paper will be found an expression from Hon. Robert W. Davis, and it is printed because of its cheerful tone and a desire to show that no bitterness rankles in the breast of this grand man. He has accepted defeat manfully, and perhaps had the truth been revealed it would have shown that he had not been rejected by a majority of his fellow Floridians. Be that as it may, it is past, and Mr. Davis takes his place in the front rank to fight for Democratic success. We cannot coincide with his opinion of some of the nominees, and one in particular, but the view point of Mr. Davis is naturally assumed on account of the position occupied by him in the late primary, and his manner of surrendering the veil of charity and his appeal to his fellow Democrats should receive the hearty approval of all.—Bartow Courier-Informant.

Gem City Guards' Gossip.

Contractor Landry of the A. C. L. Ry. is now repairing and painting the interior of the Armory. This will put the drill hall and anti-rooms in splendid condition.

Lieutenant Chas. Bart is spending his vacation at the World's Fair in St. Louis.

The company drilled on Tuesday in company drill, the firings and bayonet exercise, under the command of Capt. Callahan and Lieut. Price.

The first Tuesday in October will be inspection night and prize drill for the company trophy.

On Tuesday evening an informal honor was given at the Armory in honor of Midshipman W. L. Callahan, U. S. N.

The members expect that there will be a target range constructed on the outskirts of the city before the middle of November. Company "D" is one of the few companies that have not had a target range.

Last evening Capt. Callahan, on behalf of Mrs. Robert W. Davis, presented a photograph of Hon. R. W. Davis to the company. Nothing in the gift of the people could have been appreciated more by the command. The gift was received amid rousing cheers for Judge and Mrs. Davis. This photograph will be given a place of honor in the Armory.

Owing to the change of locations of seven or eight of the members of the company, furloughs have been granted and in the case of several others honorable discharges have been applied for.

The company now has a membership of sixty-five officers and enlisted men.

Out For Business.

By the amount of new goods in all lines now in evidence at the I. M. Meyer Co., store it is easy to see that this old reliable firm is out for its full share of the season's business. The company has a new advertisement in this issue of the News.

Mr. Crook, manager of the firm states that "the new fall stock of the I. M. Meyer Co. will be the largest and best selected in the market; we are receiving fresh goods every day and have all the new and popular styles and we can daily demonstrate to the trade that we have clothing made right and at popular prices. We also have one of the largest lines of shirts, neckwear, hosiery, underwear and gloves and the newest and best styles of hats. In making our selections of this season's goods no stone has been left unturned, no corner unexplored; we were out for novelties and novelties we got. We have prepared for a big business and you know the Meyer store always gets a big business."

A Bachelor's Dinner.

Mr. John T. Griffin entertained a party of his bachelor friends at dinner at his home last night, the occasion being a sort of celebration of his own contemplated early desertion of the ranks. Among those present were D. W. Ramsaur, J. A. Shelley, Joseph Price, Jr., R. L. Keating, A. M. McIver, L. C. Canova, Jr., F. D. Wattles, Rev. Patrick Barry, Capt. E. N. Callahan, N. H. Morgan, and James C. Ray.

Mr. Griffin will leave for Detroit about Oct. 10th, in which city he will be married to Miss Evangeline Marion, on the 20th.

IN PRAISE OF CHAMBERLAIN'S COLIC, CHOLERA AND DIARRHOEA REMEDY.

"Allow me to give you a few words in praise of Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Mr. John Hamlett, of Eagle Pass, Texas. "I suffered one week with bowel trouble and took all kinds of medicine without getting any relief, when, my friend, Mr. C. Johnson, a merchant here, advised me to take this remedy. After taking one dose I felt greatly relieved and when I had taken the third dose was entirely cured. I thank you from the bottom of my heart for putting this great remedy in the hands of mankind." NEW YORK DEMOCRATS

Nominate a Crescent City Orange Grower for State Engineer and Surveyor.

Thos. H. Stryker, whom the Saratoga democratic convention on Wednesday nominated for State Engineer and Surveyor, has for many years been a winter resident of Crescent City, where he has extensive orange grove property. He is also one of the incorporators of the Haw Creek Security Grove company, whose great orange sheds cover many acres of trees on the rich clay lands of that section.

Mr. Stryker is one of the most popular of the winter residents of Crescent City, takes an active interest in the work of the Episcopal church, and is active in golf and other outdoor sports. News of his nomination will be received with pleasure by his acquaintances and friends in this county.

The Rome (N. Y.) Sentinel of Tuesday, Sept. 20th, contained the following special telegram from the Saratoga convention:

"Saratoga, Sept. 19.—Among the names mentioned here in connection with the Democratic nomination for state engineer and surveyor is that of Thomas H. Stryker of Rome. The mention of Mr. Stryker's name was without his knowledge, and it is certain that he is in no sense a candidate for the nomination.

"The delegates who are gathering here, however, are desirous of naming a ticket that is the best that can be selected. Mr. Stryker's name has been canvassed and it has met with favorable consideration. He is recognized as one who would admirably meet the requirements of the situation, could he be induced to accept the nomination.

"It is urged that his training as a civil engineer, his ability and his integrity, together with his high standing in his home community, would make him an ideal nominee. While it can not be said that anything is settled regarding this nomination, it is the sentiment that the nominee should be one in whom the people will have every confidence, in view of the large interests that will come into the hands of the engineer in connection with the large canal and highway improvements, and prominent Democrats familiar with Mr. Stryker's fitness, are enthusiastic in urging that he be drafted as the nominee."

The large interests referred to in the above has reference to the construction of the large canal for which an appropriation of \$90,000,000 has been made, and which amount will be spent under supervision of the state engineer.

Mr. Stryker has made frequent visits to Palatka as the guest of Mr. and Mrs. Geo. B. Selden.

Perry Keener Assigns.

Perry Keener the well-known Lemon street jeweler has made a voluntary assignment to F. J. Fearnside for the benefit of his creditors. The action was brought about largely through the continued illness of Mr. Keener and his inability to attend to business. It is thought that the stock will pay the creditors in full and leave a margin for Mr. Keener.

Last fall and winter Mr. Keener made heavy purchases of high grade goods in anticipation of a big holiday trade. Then his illness came on and he was unable to attend to business. He has scarcely seen a well day, or a day free from pain, since.

The claims against the stock will foot about \$5,500. Mr. Fearnside has just completed an inventory, and though footings have not been made, ventures the opinion that the stock will aggregate \$5,000. The stock will be sold out the business being conducted by the assignee.

The assignment is surely voluntary on the part of Mr. Keener and is made by him in good faith as in the best interests of his creditors. He will go to Hot Springs, Ark., in hopes of improving his health.
